FLIGHT LOGISTICS

When planning your flights, you will need:

A flight into **O.R. Tambo International Airport** or **Cape Town International Airport**
(**United** and **Delta** have great direct flights from the states)

When you first arrive at either airport, you will need to stay the night at a hotel. **I recommend** flying into Johannesburg because there are two hotels at the airport, so you do not need to uber to your destination.

The hotels at O.R. Tambo International are **City Lodge Hotel** and the **Intercontinental**.

The next day, you need a connecting flight into **Port Elizabeth**. Here we will schedule a shuttle for your pick-up/drop-off. **AirLink** and **CemAir** are two reliable airlines we have used in the past for our team travels. **Please coordinate your connecting flight to arrive/depart between 11:00 AM-1:00 PM.**

ARRIVAL/DEPARTURE EXAMPLE:

If your VETPAW Experience trip is May 17th-26th, you need to plan for your departure on **May 15th**.

On May 15th, you will depart and land in either Johannesburg or Cape Town on **May 16th** and stay the night at your hotel. The next day- (**May 17th**) -is when you will have your connecting flight from either town into Port Elizabeth. When you're planning your flights home from South Africa, you can have your connecting flight from Port Elizabeth to Johannesburg/Cape Town and from there home all on the same day.

TRAVEL AGENT

Our Travel agent is happy to help book any of your logistics! His name is Harold Jackson (he's available seven days a week until 11:00 PM EST), his contact information is:

Phone number: +1(813)671-9234

Email: hj.travel@verizon.net

Proof of travelers insurance is required 72 hours after purchasing your VETPAW Experience

VACCINES

Please consult with your physician or general doctor. In the past, doctors have suggested a Typhoid fever vaccine for your trip to South Africa; however, it is not required for entry. The Eastern Cape, where you will be staying, is also yellow fever-free and malaria-free, so you do not need to worry about either.

Currently, a Covid-19 vaccine is **NOT** required for entry.

COVID-19 TESTING:

Currently, airlines **require** a negative **PCR** or **RT-PCR** Covid-19 test result **72 hours** before your departure.

Upon your departure from South Africa, the states require you to be tested **24 hours** before boarding your flight home. We will coordinate your Covid-19 testing before you leave.

***PLEASE NOTE THAT REGULATIONS ARE SUBJECT TO CHANGE.**

PLEASE INQUIRE WITH YOUR AIRLINE ABOUT THEIR COVID-19 RULES BEFORE YOUR TRAVELS*
